Subject: Update on Minden water main replacement project and customer notification
Attachments: ATT00001.txt; Minden Road Main Replacement - 07-2018.pdf

Good afternoon,

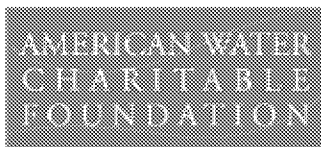

I just wanted to share an update on planned water main replacement/relocation project on Old Minden Road. Attached is a mailer that we are sending out to customers in the area this week. It explains the scope of the project, the reasons the project is needed, and what we are doing to protect public health and safety, which includes collecting 14 soil samples along the new water line route and submitting them to a lab for PCB testing prior to any work beginning. We have committed to sharing our testing results with your respective organizations as well as posting them on our website to be publicly available. Please let me know if you have any questions. Thank you.

Bill – Please share with Mayor Dickinson and town council members as you see fit.

~Laura
